

August 1, 2021 Southridge Church Update of COVID Guidelines

The Members of Southridge Church's Council share the following update. Again, we humbly ask for your willing support as we seek to promote unity among God's people to whom we minister. We ask God to bless us and trust that he will.

COVID Facility Guideline Update - Sunday, August 1, 2021

- We are continuing to request that those who attend Sunday worship would familiarize themselves with and follow the guidelines that the CDC is sharing regarding the use of facemasks. **Their current guidelines are that all people wear facemasks indoors, regardless of vaccination status.**
- Worship leaders will either be behind plexiglass shields or be vaccinated and receive a negative COVID test within two days of leading worship. This will be done to avoid speaking/singing from behind a mask when leading worship.
