My/my family's income is a gift from God. He owns it all but has given it to me to manage. He has forgiven me for every way I have faithlessly managed his money, just as he has forgiven every other sin. In thankfulness to Him, I plan to first give back to him a percentage of what he had given to me. Since he directs me to do this, I trust his promise to bless me through this.

Over the next two months, I plan to give back to him:

\$ \_\_\_\_\_ / month/week (circle one)

Place this in an envelope (x2) and insert it into the offering box near the altar. These envelopes will be returned to you in the middle of August and September.
